**Sonic Studio announces *Amarra 4***

*Company announces latest Amarra 4 ultra-fidelity media player*

**Fairfax, CA – October 13, 2016** — Sonic Studio proudly announces the newest members of the Amarra product family, *Amarra 4* and *Amarra 4 Luxe*.

*Amarra 4* heralds a new series of products that brings Sonic Studio's audio expertise into the next generation of media players.

The *Amarra 4* experience is built on new technologies including:

- Cross-platform, server-based architecture
- Amarra Audio Processing Engine
- Advanced Signal Processing
- Web-based UX

The *Amarra 4* family will include:

- *Amarra 4*
- *Amarra 4 Luxe*

*Amarra 4* has a clear and simple user interface with its own built-in music library, supporting all common audio formats including FLAC and MQA, along with incorporated professional-grade equalization. The *Amarra 4 Luxe* version combines integrated TIDAL streaming support, iOS Amarra remote control, advanced headphone processing, and unified inline DSP processing into one complete audio solution with the option for *iRC* Room Correction as well. First products are slated for release Q4 2016.

Built into *Amarra 4 Luxe*, Sonic Studio announces our Amarra Hx headphone processor, the result of integrating advanced headphone processing from Darin Fong Audio. The stereo headphone processor offers surround processing, specifically designed for headphone use. Delivered with one preset pre-installed, future users will be able to demo and then purchase additional presets to expand their collection. When used with any media player, users will hear an 'out of your head' sound, bringing a new level of excitement to their listening experience. In addition, *Amarra 4 Luxe* supports optional *iRC* Room Correction application.

"We are excited to introduce *Amarra 4* to our customers." says Jonathan Reichbach, CEO of Sonic Studio. "After a lot of behind-the-scenes work, we are pleased to demonstrate our new products and Rocky Mountain provides our best opportunity for meeting all the audio enthusiasts visiting Denver this year."
