

PreMaster CD 2.0 Installation

Installation of PreMaster CD:

Double-click on the enclosed “pkg” package file to begin the installation process. This will start the PreMaster CD installer. The PreMaster CD application and documentation can be installed in the directory of your choice.

Installation of PACD InterLok extensions:

First time users of PACE InterLok’s products, such as iLok Smart Keys, must install the PACE InterLok Extensions. This installer is included.

Downloads of PACE InterLok drivers are always available in the Help section of PACE’s iLok website:

<http://www.ilok.com>

If you have questions or issue with your installation, contact Sonic Studio Customer Support via the Support page on our web site:
