## **Sonic Studio Releases Next Version of Flagship Application**

*Company Ships Major Rewrite of Premier Digital Audio Workstation*

Plymouth, MN — October 18, 2004 — Sonic Studio, LLC, the leader in ultra-fidelity production products for audio professionals, today announced that distribution has begun for version 1.9.1 of their landmark digital audio workstation (DAW) for the Macintosh platform.

SonicStudio HD version 1.9.1 is the latest incarnation of the SonicStudio line, the first professional desktop digital audio production system. Two years of development have culminated in version 1.9.1's release, bringing improved functionality and stability to recording studios and mastering houses everywhere.

Long known in the recording industry for its often imitated editing model and pristine sound, SonicStudio HD has set many precedents for the industry, with such firsts as support for the AES-EBU standard for 24 bit word length and the DVD-Video-mandated standard for 96 and 192 KHz sample rates, as well as multitasking DSP and double precision data paths.

Version 1.9.1 of SonicStudio HD represents just one in a new group of offerings designed specifically for discriminating media production professionals. Faster job completion, streamlined workflow and a higher fidelity end product are all part of the compelling package that Sonic Studio products afford.

### **About Sonic Studio, LLC**

Sonic Studio is the premier manufacturer of ultra-fidelity DSD and PCM content creation systems. Sonic Studio's Emmy award winning NoNOISE suite is the leading audio restoration toolset for archivists, record labels, videographers and forensic investigators while their product line for Red Book premastering defines the state of the art. SonicStudio HD, the first high density PCM audio production application, is joined by the new DSD.1 for SACD content creation. Sonic Studio's digital audio workstations are installed at all major studios, record labels and post production facilities worldwide. Based in Plymouth, Minnesota, Sonic Studio has development and sales offices in California and Texas, with an international network of distributors and channel partners who share the same commitment to quality and service.
