

soundBlade version 1.2

06/04/07

Registering soundBlade —

1. Visit:

<http://www.sonicstudio.com/reg>

Fill out the form completely, including your iLok.com User ID, iLok serial number, and soundBlade serial number in addition to *all* other registration information. Your soundBlade serial number is the 9 digit number that is located on the back of your soundBlade jewel case or was e-mailed to you from Sonic Studio. We will manually transfer a license to your iLok account within 2 business days.

Note: *Failure to completely and accurately fill out the registration form will delay the processing of your request.*

2. You will receive an e-mail from Customer Support indicating that your iLok has been licensed for soundBlade. If you have purchased any options for soundBlade, this e-mail will also include your unique key file.

3. Visit:

<http://www.ilok.com>

Log in to your account and download the soundBlade license to your iLok Smart Key. SoundBlade is now authorized for any host into which your iLok is inserted.

Note: *Your iLok and it's license are required to run soundBlade. Other iLoks will not allow soundBlade to run.*

4. Optional:
If you purchased additional software options, they may be loaded by selecting "Update Key File" from soundBlade's File menu. Choose the new key file provided by Customer Support. soundBlade will need to be restarted for your new options to become active. Each host on which you want to run soundBlade will require key file updating.

Note: *This key file is designed to work only with the iLok serial number entered in the registration page. Other iLoks will not activate your options.*

License Transfers —

Please go to:

<http://www.ilok.com>

for information regarding the transfer of soundBlade licenses to another iLok account or user.

Registering Vive —

1. Please send an e-mail to:

sales@sonicstudio.com

requesting a serial number for your copy of Vive.

2. You will receive an e-mail from Sonic Studio sales containing your serial number. Use that serial number when running the installer package.

Support —

If you have questions or issue with your installation, visit Sonic Studio's Customer Support web pages at:
